I will keep you informed. Please let me know if you receive any media inquiries on this. In the meantime, while I find out how PM USA is responding -- since Mr. McLaren and this NYTimes article are USA issues -- I think you can say, honestly, that you have not seen the article, it is an American newspaper, and that you will check into the inquiry and get back to the reporter when you have more information.

Cordially,

Not a single one. - We have AGREED with that proposal in our submission to the authorities for instance in Sweden.
"Support" in my faulty English does not mean the same as "actively drive", as there are many practical problems with this kind of legislation,
regards, Stig

Can you think of any reason why PMI could NOT adopt a policy in which we would state that "The Company supports legislation to ban the sale of cigarettes to minors."
